Skills For Dementia Care

Level 2 Award Programme:

Awareness of Dementia

Level 2 Award Programme

This programme will provide the learner with the information that sets the basis for dementia care practice.

On completion of the 4 modules in this level 2 award programme the learners will receive a Level 2 QCF Award.

Module 201

A person centred approach to dementia awareness

Learners will:

- Understand what dementia is.
- Understand the key features of the theoretical models of dementia
- Know the most common types of dementia and their causes
- Understand factors relating to an individual's experience of dementia

Module 202

The person centred approach to the care and support of the individual with dementia

Learners will:

- Understand the approaches that enable individuals with dementia to experience wellbeing
- Understand the role of carers in the care and support of individuals with dementia
- Understand the role of others in the support of individuals with dementia

Module 205

Understand the factors that can influence communication and interaction with individuals who have dementia

Learners will:

- Understand the factors that can influence communication and interactions with individuals who have dementia

- Understand how a person centred approach may be used to encourage positive communication with individuals who have dementia
- Understand factors that can affect the interactions with individuals with dementia

Module 207

Recognising the impact of equality, diversity and inclusion on the experience of dementia

Learners will:

- Understand and appreciate the importance of diversity of individuals with dementia
- Understand the importance of person centred approaches in the care and support of individuals with dementia
- Understand ways of working with a range of individuals who have dementia to ensure diverse needs are met
