

Lone Working and Working with Risk

Aims and Objectives:

- Legislation
- Define Lone Working
- Identify the hazards associated with lone working
- How to handle an aggressive person/situation
- What measures are in place
- Preventative measures

Course Duration: 1 day

Assessment Criteria: Group work tasks and reflective quiz

This course is for health and social care professionals, organisations, managers, paid workers and volunteers, who work on their own or with clients who may be violent or aggressive.

As a participant in this course, you review skills and strategies for preventing or diffusing challenging behaviour and develop self-awareness to enhance personal safety while working alone with clients.

Completing this course, you gain a certificate of attendance for continuing professional development purposes.
