

# Supporting Individuals in End of Life

## **Aim and objectives are:**

- Understand the requirements of legislation and agreed ways of working
- Understand factors affecting end of life care
- Understand advance care planning
- Be able to provide support to individuals and key people
- Understand how to address sensitive issues
- Provide support to manage pain and discomfort
- Understand how to manage own feelings

**Course Duration:** 3 hours

**Designed for:** All employees

**Assessment method:** continuous assessment by the trainer and written assessment

This End of Life course is designed for candidates working within a caring role with individuals who have life-limiting illness. The candidates will be able to apply skills and qualities learnt, with confidence and have an understanding of End of Life Care, incorporating dignity, comfort and empathy
